EXPERIENCE

Management Consulting Analyst

Accenture Strategy & Consulting (Accenture SONG)

Bengaluru, IN

Aug 2026 – present

This is a summary....

- *Architected a 2-tier hybrid intent router* in FastAPI and LangGraph across 100+ healthcare intents, bypassing LLM calls via vector similarity (>0.82) for $<5\text{ms}$ routing and enforcing fallbacks with Instructor Pydantic schemas.
- Engineered an asynchronous multi-agent orchestrator over WebSockets to support real-time client interrupt signals, pgvector persistent memory, and partial Pydantic streaming to cut TTFT from 3.5s to $<300\text{ms}$.
- Built a 2-stage hybrid RAG pipeline fusing BM25 sparse and zembed-1 dense retrieval via Reciprocal Rank Fusion (RRF) and Cohere Reranker V3 over parent-child chunks (512/2048 tokens), a 92% Hit Rate@5 and 0.74 MRR.
- Implemented an automated evals harness using Promptfoo CI/CD assertions and LLM-as-a-Judge critics alongside local NLP NER middleware for zero-leakage PII anonymization and volatile memory stream re-hydration.
- Implemented an automated evals harness using Promptfoo CI/CD assertions and LLM-as-a-Judge critics alongside local NLP NER middleware for zero-leakage PII anonymization and volatile memory stream re-hydration.

Senior Software Development Engineer

Tata Neu

Mumbai, IN

Sept 2020 – June 2024

- Led a 3-engineer pod to architect e-commerce journeys (Product Landing, Cart, Checkout) with hybrid payment integration, driving a $\sim 47\%$ conversion increase, and processing 14K+ weekly orders for 120Mn+ end users.
- Engineered aggressive preloading and pre-rendering designs within the Flutter superapp, eliminating browser engine cold starts and reducing Time-to-Interactive (TTI) by up to 70%.
- Spearheaded Adobe Experience Manager, Sanity and React integration, decoupling frontend rendering from backend logic, cutting content delivery from days to minutes, empowering product teams to autonomously run A/B tests.
- Solely-owned the ‘My Orders’ frontend module in ReactJS/Redux, scaling it to a top-5 visited page during the 800K+ employee rollout; earned ‘The Spark’ Award and ‘Exceptional Achiever’ rating (ranked top 3 of 250+ developers).
- Scaled a centralized Storybook.js design system with 40+ context-aware React components, cutting frontend feature delivery time by $\sim 30\%$ across a 30-engineer cross-functional team.
- Fast-tracked for the Tata Administrative Services (TAS) flagship leadership program; shortlisted for the final Chairman’s Group Discussion among 80+ top-performing internal candidates.

FOUNDING EXPERIENCE

Co-Founder

Zargun Electronics and Science Pvt. Ltd.

Mumbai, IN

Jan 2018 – Aug 2020

Directed product engineering until MVP launch before transitioning to a non-operational advisory role in August 2020.

- Built ultra-low-powered modular IoT ecosystem devices with interchangeable sensor payloads, micro-spectrometry (to identify and segregate polymers – HDPE, PET, PP) enabling scaling across waste, compost, and material sensing.
- Architected real-time event-driven telemetry pipeline on AWS (Lambda, Kafka, PostgreSQL, EC2, MQTT) to process streaming IoT hardware telemetry into an automated GIS dispatch and route optimization engine.
- Achieved 5-year battery autonomy in off-grid deployments by engineering firmware with deep-sleep duty cycling across NB-IoT, LoRa, GSM protocols and dual-modal LiDAR/Ultrasonic sensing.
- Recognized as a Top 15 social enterprise in APAC (out of 41 teams across 16 nations) at the Singapore International Foundation’s Young Social Entrepreneurs cohort, receiving mentorship from McKinsey and Temasek International.
- Secured over \$44K in seed funds, via the MeitY STPI CHUNAUTI challenge, alongside strategic victories at the IITB-SJMSOM Pitch 2.0, NXP India Tech Startup Challenge (Top 10), and Maharashtra Startup Week (Top 100).

EDUCATION

Faculty of Management Studies, University of Delhi

Master of Business Administration (MBA)

Delhi, IN

July 2024 – May 2026

Sardar Patel Institute of Technology, University of Mumbai

Bachelor of Engineering (BE) in Electronics & Telecommunication Engineering

Mumbai, IN

June 2016 – May 2020

SKILLS

AI Systems: Gen AI, LLMs, Agentic AI, Multi-Agent Architectures, LangGraph, LangChain, Orchestrator-Worker Pattern, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), Evals, Chain-of-Thought, Few-Shot Prompting, Chunking, Vector Embeddings, ChromaDB, Intent Taxonomy Mapping, Pydantic, Crawl4AI, Instructor

Languages & Runtimes: JavaScript, TypeScript, Node.js, Dart, Flutter, REST API, Next.js, React, Redux, MobX

DevOps & Tools: GCP, AWS S3, OpenRouter, Docker, Git, VS Code, Visual Studio, Sanity CMS, MySQL
