EDUCATION

Faculty of Management Studies, University of Delhi

Master of Business Administration (MBA)

Delhi

July 2024 – May 2026

Sardar Patel Institute of Technology, University of Mumbai

Bachelor of Engineering (BE) in Electronics & Telecommunication Engineering

Mumbai

June 2016 – May 2020

- Awarded Departmental and Institute Excellence honors for performance in Mitsubishi Electric Cup 2019; Led a team of 4 to rank 5/35 national finalists, secured INR 2L+ in corporate sponsorship and advanced PLC/HMI training.
- Secured INR 5L grant from Department of Science & Technology (GOI), Texas Instruments, NSRCEL (IIM-B), and filed 3 prov. patents for developing an aquaculture system; Top 30 Finalist team nationally among 100K+ applicants.
- Authored 3 IEEE research papers (presented at, IEEE Region 10 Conference – TENCON 2019, iSES, and GCAT) covering topics like cloud-based OPC telemetry, Industrial IoT automation architectures and computer vision.

EXPERIENCE

Management Consulting Analyst Intern

Accenture Strategy & Consulting

Bengaluru, IN

Apr 2024 – May 2024

- Developed a stateful multi-agent orchestrator prototype using LangGraph and LangChain to conceptualize the migration of a legacy Genesys IVR system to a conversational AI platform for a Fortune 10 Healthcare Enterprise.
- Engineered an automated data pipeline to scrape, collate, and refine unstructured text from 100+ public enterprise URLs and policy PDFs, applying semantic paragraph chunking to build a vectorDB layer for RAG retrieval.
- Designed a context-aware RAG chatbot using multi-LLM router pipelines, Chain-of-Thought (CoT), and few-shot prompting; demonstrated automated classification of ~70 healthcare intents, their steering and routing user queries.

Senior Digital Engineer I

Tata Neu

Mumbai, IN

Sept 2020 – June 2024

- Led a 3-engineer pod to build e-commerce (Cart, Checkout) journeys with a hybrid Croma payment integration, driving a ~47% landing-to-checkout conversion increase, processing 14K+ weekly orders for 120Mn+ end users.
- Spearheaded Adobe Experience Manager (AEM) and React integration, decoupling frontend rendering from backend logic, cutting content delivery from days to minutes and empowering product teams to autonomously run A/B tests.
- Engineered aggressive WebView preloading and pre-rendering designs within the Flutter superapp, eliminating browser engine cold starts and reducing Time-to-Interactive (TTI) by up to 70%.
- Built the 'My Orders' frontend module as sole owner, scaling it to top 5 most visited page during the 800K+ user rollout; earned 'The Spark' Award and 'Exceptional Achiever' rating for ranking in top 3 out of 250+ developers.
- Fast-tracked for the Tata Administrative Services (TAS) flagship leadership program; shortlisted for the final Chairman's Group Discussion among 80+ top-performing internal candidates.

FOUNDING EXPERIENCE

Co-Founder

Zargun Electronics and Science Pvt. Ltd.

Remote

Jan 2018 – Aug 2020

Directed product engineering until MVP launch before transitioning to a non-operational advisory role in August 2020.

- Architected modular and ultra-low-powered IoT ecosystem devices with interchangeable sensor payloads, micro-spectrometry (to identify polymers – HDPE, PET, PP) enabling scaling across waste, compost, and material sensing.
- Recognized globally as a Top 15 enterprise (out of 41 teams across 16 nations) at the Singapore International Foundation's Young Social Entrepreneurs cohort, receiving mentorship from McKinsey and Temasek International.
- Secured over \$44K in seed funds, via the MeitY STPI CHUNAUTI challenge, alongside strategic victories at the IITB-SJMSOM Pitch 2.0, NXP India Tech Startup Challenge (Top 10), and Maharashtra Startup Week (Top 100).

PROJECTS

FinInfer

Aug 2024 – present

Financial Orchestrator to automate portfolio optimization and cross-border tax analysis (US/India).

- Designed a financial document processing pipeline leveraging using LangGraph, PydanticAI, Crawl4AI and Instructor to extract granular asset distributions and compensation components from fragmented PDFs.
- Implemented hierarchical routing to delegate tasks across specialized agents, reducing context window tokens by 40%.
- Built a Stock Screening Engine with a Text-to-SQL semantic routing pipeline having a 94% translation accuracy rate.

SKILLS

AI Systems: Gen AI, LLMs, Agentic AI, Multi-Agent Architectures, LangGraph, LangChain, Orchestrator-Worker Pattern, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), Evals, Chain-of-Thought, Few-Shot Prompting, Chunking, Vector Embeddings, ChromaDB, Intent Taxonomy Mapping

Languages & Runtimes: JavaScript, TypeScript, Node.js, Dart, Flutter, REST API, Next.js, React, Redux, MobX

DevOps & Tools: GCP, AWS S3, OpenRouter, Docker, Git, VS Code, Visual Studio, Sanity CMS, MySQL
